

**UNMATCHED ON-LANE ENTERTAINMENT FOR EVERY MARKET SEGMENT.**

BES is the one and only Bowler Entertainment System on the market. Nothing else provides such a unique, fresh customer experience for each segment of your market. BES comes with up to 17 graphic environments, 17 games (BES and Classic), a spare-finder online tutorial, and more to provide dedicated on-lane entertainment to all of your customers.

BES is upgradeable, modular and built on open architecture. We continue to add new environments or games to it, to allow you to always provide a fresh experience to your customers. So BES grows right along with your business as it grows and the history proves it.

BES appeals to all market segments including: families, teens & young adults, adults, seniors, leagues/tournaments and open play.

**QUBICAAMF INTEGRATED SYSTEMS**

**TESTED, MEASURED & PROVEN.**

At QubicaAMF, we believe that your success today and tomorrow is ours as well. Staying in close contact with our customers has led our R&D team to create **one industry first after another. Tested, measured and proven**, many of these innovations are still **unmatched in the marketplace**. Many remain QubicaAMF exclusives. Not a year goes by when we don't introduce something new **designed to make customers appreciate your bowling center more; and bring them back more frequently.**

**OUR UNIQUE R&D TEAM WORKS NON-STOP ON NEW IDEAS FOR YOUR BUSINESS**

We're proud to claim the largest, most experienced R&D team in the industry. With a staff of over 40 people, we're working everyday to develop software and electronic systems with you in mind. **It's our passion.**

**WHEN WE INTRODUCE THE NEXT GREAT THING IN BOWLING, IT WILL ALREADY WORK WELL WITH THE QUBICAAMF SYSTEMS YOU CHOOSE TODAY.**

**MODULARITY** - We develop every QubicaAMF system with future add-ons in mind. Our modular systems mean you can stay within your budget now and add on later with complete confidence that everything will be compatible.

**UPGRADEABILITY** - Since 1993, every system introduced by Qubica, now QubicaAMF, could be upgraded to today's version, for a fraction of the cost of a new system. We've never left a single customer behind.

**QUBICAAMF SOLUTIONS** - Turnkey, business building, industry-first Solutions. Themed Birthday Parties, Your Lane, Your Way, Web Reservations and Players Club Solutions include everything from training to procedures to marketing and merchandising materials to allow you to use your systems to drive revenue and generate results. Choose QubicaAMF Solutions and our Integrated Systems to generate results, market your business and drive customer satisfaction to differentiate your center from your competition and compete in today's vast entertainment arena.

# CONQUEROR PRO: YOUR COMPLETE MANAGEMENT SYSTEM

Your management system is the heart of your business. While many systems look similar at first, in-depth comparison reveals real differences. Make the comparison yourself. Imagine critical situations and challenge each system to solve them.

## CONQUEROR REMOTE

With any wireless connection anywhere, your laptop becomes an additional bowling center workstation. You can operate exactly as you would in your center, using whatever Conqueror Pro functions you want, including setting prices and options, solving technical problems, booking lanes, defining leagues, checking income, and more.

- Real-time cameras show what's happening as it's happening
- Real-time income monitoring

## CONQUEROR PRO POS

Managing birthday and corporate parties, simple and complex transactions, and handling customers who move around your center, all of these functions have never been easier to handle than they are with Conqueror Pro.

- Service customers faster
- Seamless Transactions provide customers with one bill at checkout
- Same POS interface in every context
- Flexible and Advanced Tab Management
- Modifiers
- Gratuity/Tip Management
- Credit Card Transaction Management
- Dynamic pricing
- Price key organization
- Mixed package creation
- Open-choice menus
- Main department setup
- Tax Management
- POS integrates with Frequent Bowler Tracker
- POS integrates with Web Reservations
- Shift reports
- Designate printers with every product
- Receipt Details
- Barcode scanner and rapid search

## FREQUENT BOWLER TRACKER (FBT)

In the battle for the hearts and minds of customers, little things mean a lot. And with the Frequent Bowler Tracker (FBT) working for you, your center makes the most of customer relationships and rewards their loyalty.

- Complete management of every customer type
- Detailed tracking of everything customers do
- Filtering and selection module to create marketing lists
- Individual or family cards, for swiping or manual recognition
- Gift Card Creation & Management
- NEW! FBT sign-in directly from the lane
- Member Point Collection Management

## ELECTRONIC BOOKING SYSTEM - ADVANCED RESERVATIONS

- Totally integrated
- Real-time interaction with lanes
- Quick or detailed booking
- Complete and Flexible bookings management & deposits
- Mixed and recurring bookings
- Overbooking area

## ONLINE BOOKING - WEB RESERVATIONS

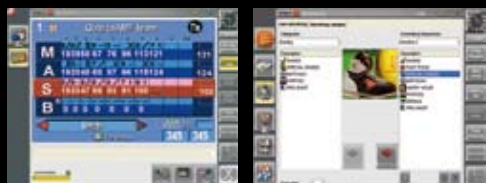

Almost all industries – from hotels to travel, from cinemas to restaurants – offer online reservations. Consumers expect it. Now your bowling center can offer online reservations, too. Only QubicaAMF Web Reservations fully integrates with lane management and POS.

- Easily integrates with your website
- Offer Online Promotions
- NEW! Shopping Cart
- Credit card payment and deposits
- Flexible set-up
- Online sign-in and FBT account status lookup
- Real-time integration with booking, lane availability, price key set-up
- Plug-and-play firewall security

## LANE MANAGEMENT

- Totally integrated - Every Conqueror Pro Module integrates fully with the lanes
- Lane-On modes
- Dynamic display of lanes status based on number of lanes
- Drag and drop functionality
- Fast operations
- Next available lane notification
- Individual or Group Bowler check-in and check-out
- Quick Score corrections
- Advanced print score module
- Casual competitions features
- Special lane functions including: player-by-player lane-split and merge, players and lane transfer, pinspotters control for practice, re-open, and more.
- Every type of bowling fully supported
- Full Pricing Control
- Global price assignment
- Quick Voiding and refunding
- Fully Integrated Food & Beverage

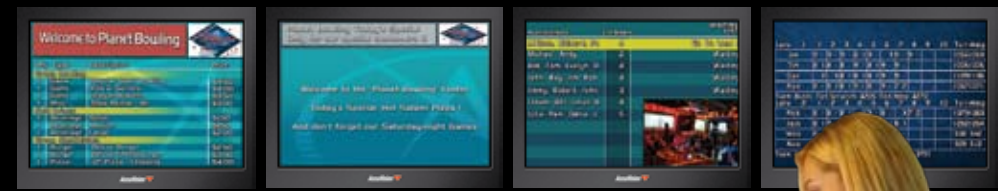

## NEW! CONQUEROR PRO UNIVERSAL

Now BOSS, AccuScore XL, AccuScore Plus, AccuScore I & II and MagicScore customers can access the power of Conqueror Pro and its many modules without having to change their scoring systems. Because now Conqueror Pro interfaces with these legacy scoring systems. It's part of our commitment to preserve the investment these customers have made with QubicaAMF.

Some modules, systems or features of Conqueror Pro may be limited in functionality when installed with these scoring systems. Conqueror Pro may not include some of the existing features of the replaced AMF legacy management systems.

COMING SOON! Conqueror Pro for AS-80, AS-90 and Framework. Ask your QubicaAMF representative for details.

## MULTI-MEDIA SYSTEM (MMS)

The QubicaAMF Multi Media System (MMS) delivers real-time information to monitors throughout your center. Whether it is in-center marketing to grow business, or information that keeps customers updated, this unparalleled level of communication enhances open play, league play, customer service, and center management too.

- MMS Price Menu
- MMS Advertising Displays
- MMS Waiting List
- MMS League & Tournament Standings
- MMS View-Any-Lane
- MMS Strike Challenge

## TROUBLE CALL SYSTEM (TCS)

With the QubicaAMF Trouble Call System, TCS, a pinspotters-stop turns into an opportunity to show unparalleled customer service by keeping waiting time to an absolute minimum.

- Mechanic receives an exact error message on his wireless
- Alerts the front desk of the pinspotters problem
- Notifies the affected bowlers via a lane-status display on their scoring monitor
- Keeps the bowlers informed of their lane's repair status
- Keeps the Front Desk updated in real-time
- Customers immediately know when their lane is back in operation

## MANAGE YOUR PINSPOTTERS PROACTIVELY WITH TCS

- Greatly improves your games-per-hour ratio by ensuring a proactive maintenance program
- All error stats – lane, source, total downtime – are automatically recorded into the TCS database
- Complete on-demand reporting system monitoring frames-per-stop better
- Works with all QubicaAMF scoring systems and virtually all pinspotters models on the market today.

## SYSTEM HARDWARE

At QubicaAMF, we develop our own hardware for the systems we sell. Unlike other manufacturers, we have full control of our development and production process, for both hardware and software. This winning approach leads to improved reliability, stability and longevity for our products.

- One electronic unit per lane-pair
- No Hard Drive
- No Fan / No Moving Parts
- Power-loss protection

## LCD MONITORS

AccuVision monitors are QubicaAMF commercial grade monitors, private-labeled by QubicaAMF for the bowling industry. They are high quality monitors, custom engineered to work with QubicaAMF scoring and entertainment systems and integrate completely with Conqueror Pro software. The QubicaAMF AccuVision LCD monitors are available in the following configurations and supplied with custom hangers, for a hassle-free installation.

- QUBICAAMF ACCUVISION LCD 32"
- QUBICAAMF ACCUVISION LCD 42"

You can also purchase your own standard televisions, LCD, Plasma or Projection Screen displays and have them installed in your center.

## CONSOLES

Choose QubicaAMF consoles for their stylish good looks. Choose them for their space-saving design. Choose them for their rugged functionality. Whether it's one of these reasons or all of them, you can't go wrong with these versatile consoles that complement any center look.

- MICRO-I, MICRO-II and MICRO AXE CONSOLES
- HERCULES STANDS
- FLY CONSOLE
- LCD TOUCHSCREEN: SMILE ARCH AND AXE
