VOLLMER Sport - SnooBowl offers a new and original game combination

SnooBowl

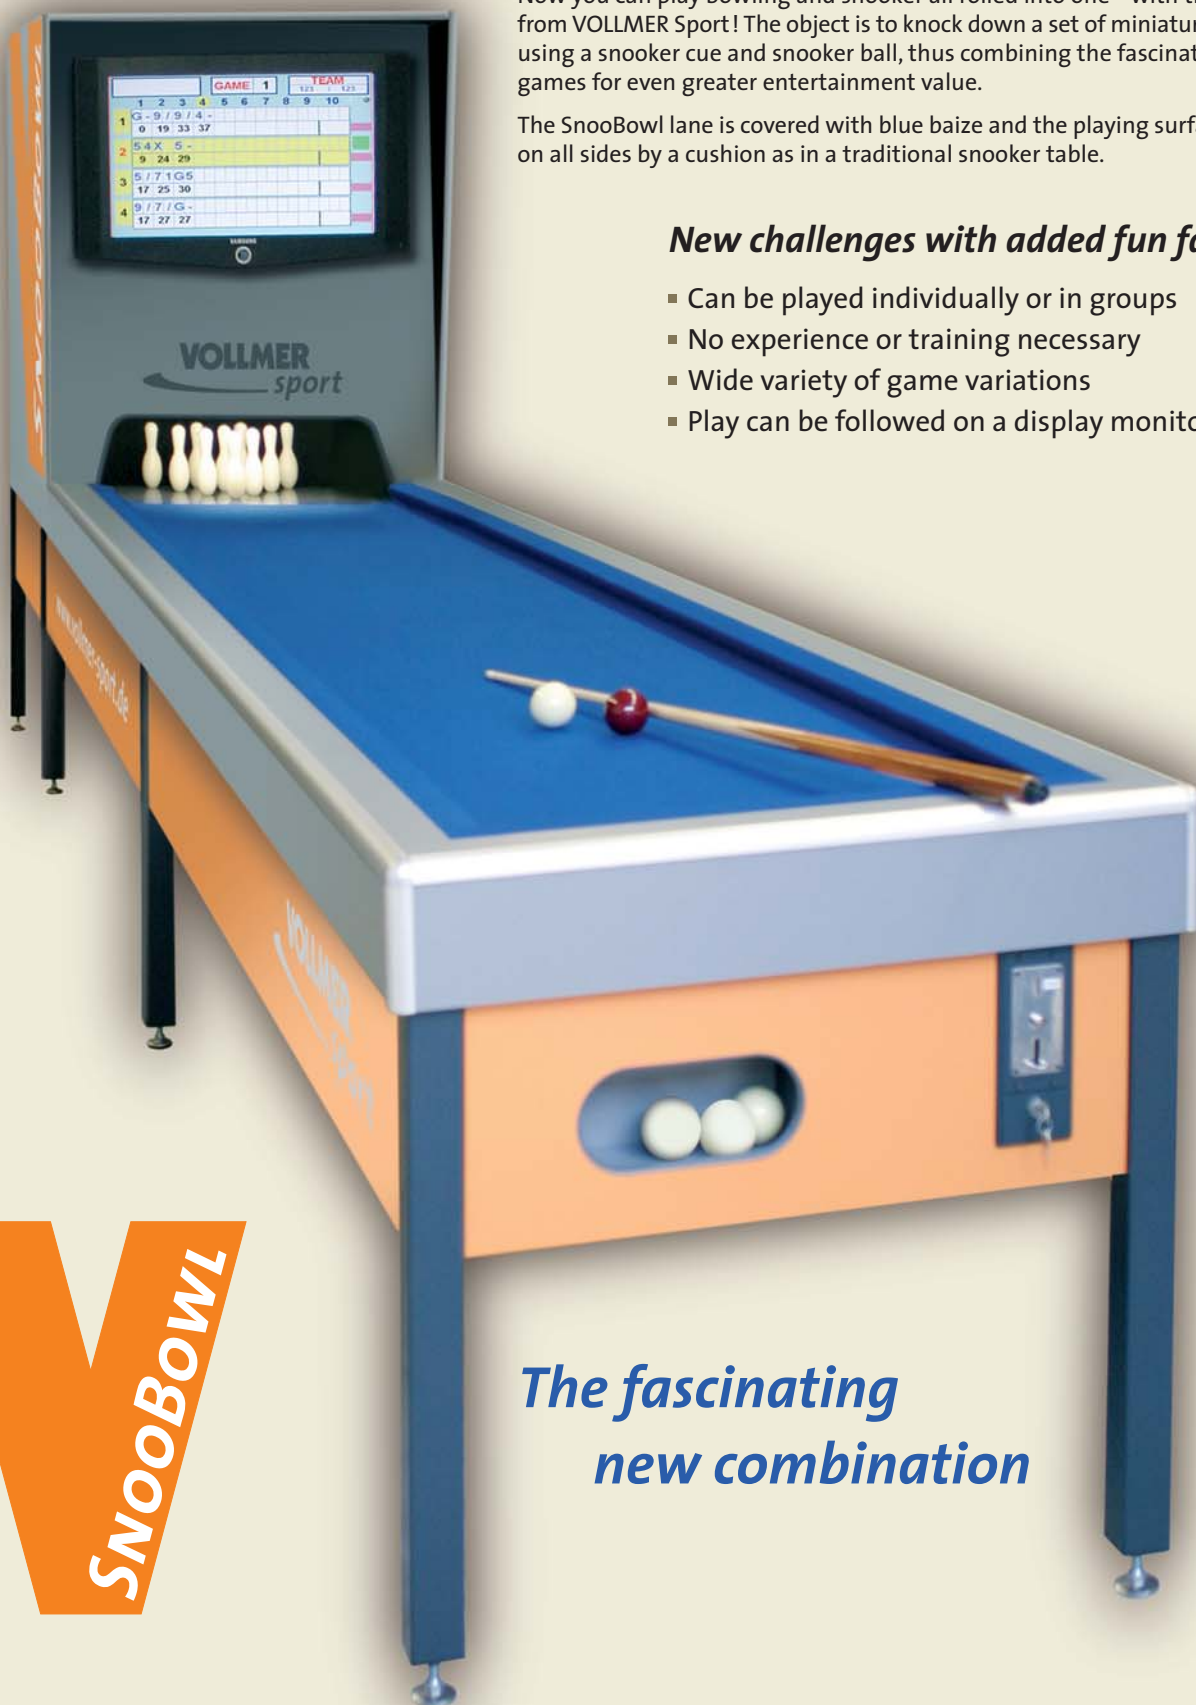

Bowling with a snooker cue

Now you can play bowling and snooker all rolled into one - with the new game from VOLLMER Sport! The object is to knock down a set of miniature bowling pins using a snooker cue and snooker ball, thus combining the fascination of both games for even greater entertainment value.

The SnooBowl lane is covered with blue baize and the playing surface is bounded on all sides by a cushion as in a traditional snooker table.

New challenges with added fun factor

- Can be played individually or in groups
- No experience or training necessary
- Wide variety of game variations
- Play can be followed on a display monitor

SnooBowl techniques

Combine the precision of billiards with the „Wow“ factor of a strike at bowling.

Direct play

The ball is aimed directly at the bowling pins using the snooker cue.

Indirect play

An obstacle is placed on the bowling surface so that the player has to aim the ball at the pins via a cushion. This increases the degree of difficulty and further enhances the suspense and entertainment value of the SnooBowl game.

Carambol play

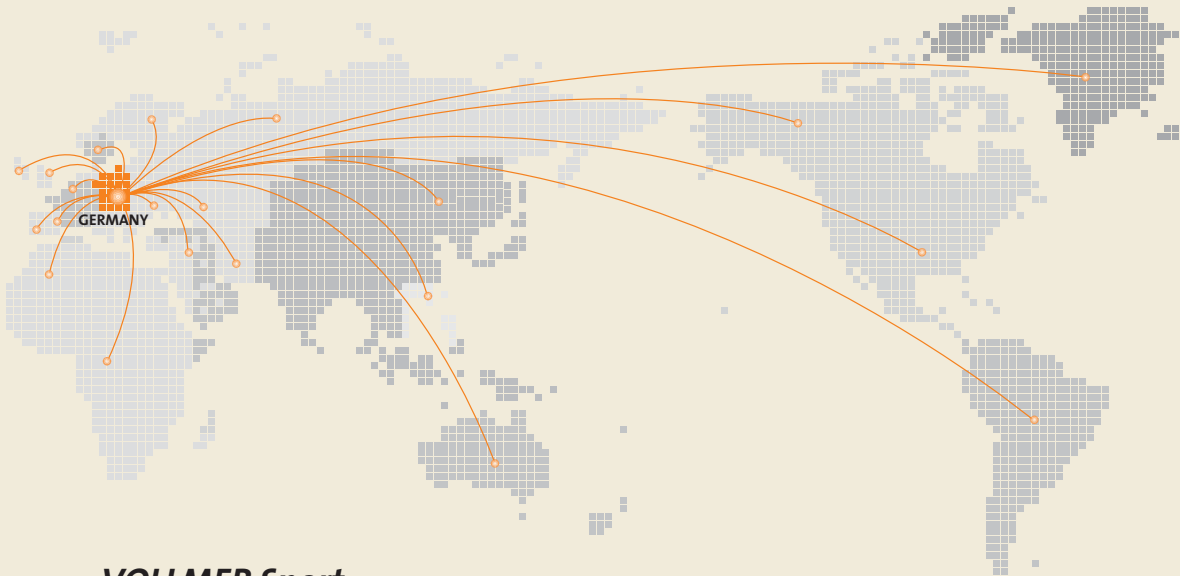

Precision canon technique as in traditional snooker. Put a second ball in the middle of the lane and play with the first on the second.

Fun, entertainment and suspense

Unlimited possibilities

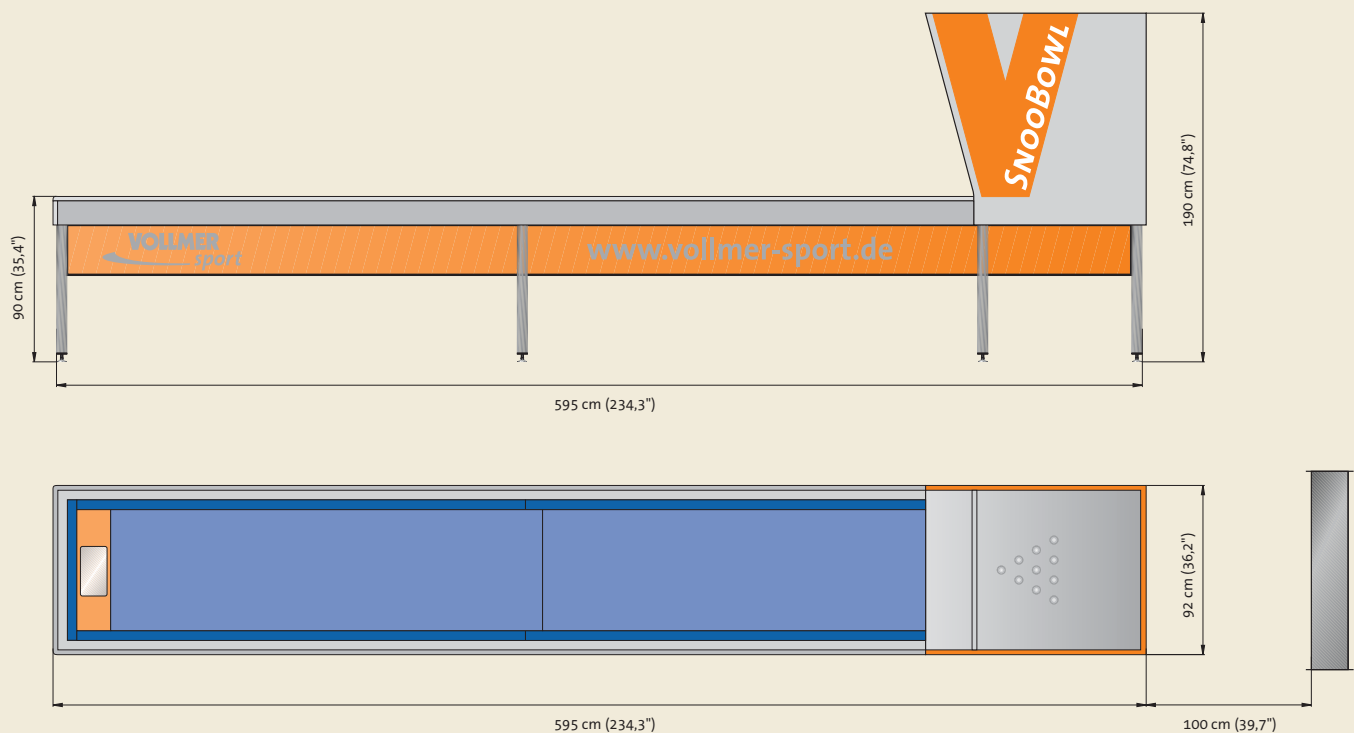

The VOLLMER Sport SnooBowl game has great potential for a whole new range of applications. This novel pastime enhances the attractiveness of leisure parks, shopping centres, holiday resorts, sports clubs and amusement arcades for example, thereby boosting visitor numbers.

VOLLMER Sport - your competent partner for the future

Attractive, modern game systems are a magnet for children and adults alike.
