

# Pinsetter

*robust, compact, unique*

## ***VOLLMER Sport advantages***

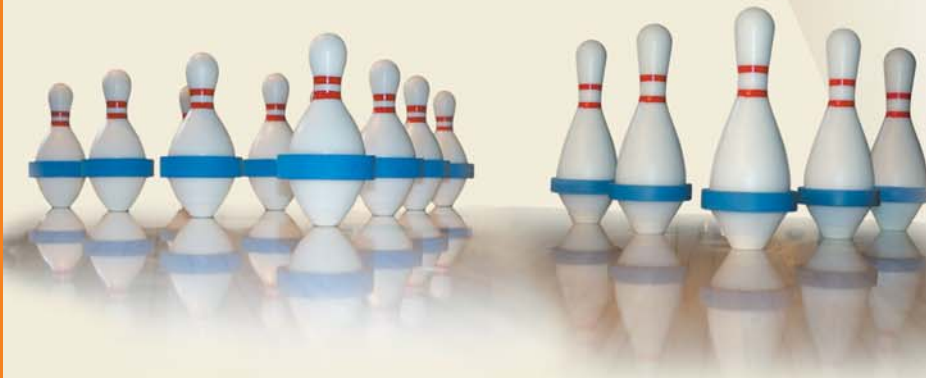

- Robust, stable design
- Made for continuous use
- Compact and clearly laid out
- Minimal maintenance costs
- Optimal automatic disentangling mechanism

The overall design is geared to simplifying pin-setup, and the integrated electronic disentangling mechanism is among the best available. These features, together with a high setup speed, can be relied on to ensure the smooth running of your bowling lanes.

# Pinsetter

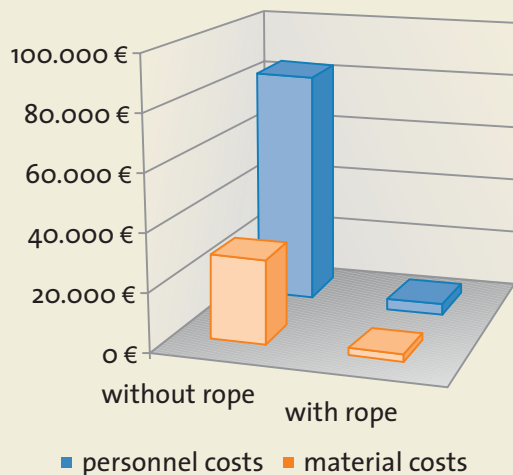

*robust, compact, unique*

VOLLMER Sport pinsetters have a long record of success under tough conditions. Developed on the basis of an 80-year mechanical engineering tradition, the superior technical design of the VOLLMER Sport pinsetter is reflected in its reliability, minimal maintenance, short setup times and effective disentangling mechanism.

## **VOLLMER Sport offers** pinsetter solutions for

- bowling
- mini-bowling
- duckpin
- five-pin bowling

## **Operating cost comparison**

**Pinsetters with and without ropes** - as exemplified by a 20-lane bowlingcenter, by pinsetter.

You too can benefit from the cost advantages of a VOLLMER Sport pinsetter. The extremely low maintenance costs will enhance both your profit and your customers' enjoyment.
